Measure A raises revenues of eight million dollars annually for these Peralta Community Colleges: Oakland's Laney and Merritt Colleges, College of Alameda and Berkeley City College. The colleges are required to use the funding to help prepare students for jobs and careers as well as for transfers to four-year colleges. Funds from the measure also support retraining programs, ensure the preservation of core academic programs and facilitate the recruitment and retention of faculty.

The League supports a statewide community college system with sufficient resources to fulfill its overall goal of offering all Californians access to a quality higher education. Measure A revenues make a significant contribution to that goal for these four colleges. Effective oversight is provided both by an annual audit and by the trustees who review an annual report on expenditures.
