THE LEAGUE OF WOMEN VOTERS OF ALAMEDA

Alameda City 2026 Campaign Contributions

November 3, 2026 election

Understanding the Charts

The charts cover all contributions made to candidates from the time they created campaign finance committees for the November 2026 election. These start dates will vary by candidates.

The totals currently shown reflect all contributions reported on California Form 460 in the second pre-election filing due October 22, 2026 as posted on the City of Alameda website. The charts will be updated again after the next filing deadline at the end January 2027.

The data reflect both monetary and non-monetary contributions in excess of $100 from any one source. Contributions of less than $100 are not itemized and are therefore not reflected in the totals except as noted in the Contributions by Size graphs.

The total contributions to individual candidates do not reflect amounts spent on their behalf by Independent Expenditure Committees. If the candidates are not coordinating this support, they are not required to include it as a financial contribution to their campaign. We describe the amounts collected and spent by Independent Expenditure Committees in a table following the list of large contributors and loans.

Categories of information in the charts (location of contributor, type of contributor and size of contribution) are the same categories used to record the information in the 460s; we have labeled the categories somewhat differently for clarity. Contributions from special purpose PACs connected to unions or businesses have been categorized as union or business based on the source; contributions from general purpose PACs are listed as political.

Location is determined by the mailing address listed for the contributor in the filing forms. If the contribution came from a group, the address of the group rather than its individual members determines how the contribution is categorized by location.
