

League of Women Voters of Alameda

LWVA Book Group operating guidelines:

1. Person who recommends a book for the group's consideration must have read the book.
2. The person who recommends the book being discussed that month makes a brief informational presentation at the beginning of the discussion.
3. Stick to nonfiction (although sometimes have read historical fiction, e.g. Michener's *The Source*).
4. Prefer books that have been in print for a while, so that the group members can get that book in a manner other than purchasing a hard cover book. This could be obtaining in paperback, or online, or borrowing from the library.
5. Prefer 500 pages or less except in the summer when there might be a two month "reading period."
