

Action Alerts

At all three levels of government, the League of Women Voters monitors public policy changes being considered by legislative and executive bodies. Swift action by citizens like you can help elected officials make decisions based on the opinions of their constituents rather than on the opinions of powerful, well-funded special interests. There is strength in numbers; take action now and help us influence policy makers!

Sign up for National Action Alerts: <http://lwv.org/get-involved> and State Action Alerts: <http://lwvc.org/stay-informed>.

When you receive an email Action Alert please respond. It takes only a minute or two to send a note to your legislator or to sign a League-sponsored petition. Then, send the alert to your friends, family, neighbors – anyone you think might also add their name in support of our League position.
